Specification of Sparassis crispa extract powder

Basic information.

1. Product Name: Sparassis crispa extract powder
2. Other Name: Botanical names
3. Appearance: Brown Yellow Powder
4. Part Used: Mycelium
5. Active ingredient: Polysaccharide
6. Specification: Polysaccharide 10%
7. Test Method: HPLC
8. Odour: Characteristic
9. Extraction Type: Liquid-Solid Extraction
11. Storage: Store in a dry and cool area, keep away from direct light and heat.
12. Shelf Life: 2 years if properly stored

Description:

Sparassis (also known as cauliflower mushroom) is a genus of parasitic and saprobic mushrooms characterised by their unique shape and appearance. This appearance can be described as similar to a sea sponge, a brain, or a head of cauliflower, from which it has been given its popular name. They are increasingly cultivated and being sold in Korea, Japan, USA and Australia.

The generic name comes from the Greek sparassein meaning to tear.

Function:
1. Sparassis crispa polysaccharide has anti-tumor effect.
2. Sparassis crispa polysaccharide has antioxidation effect.
3. Sparassis crispa polysaccharide can remove melanin.
4. Sparassis crispa polysaccharide enhance immunity.
